DETAILED ACTION

Claim Objections

Claims 4-7, and 13-14 are objected to because of the following informalities: The multiple dependent claims are not properly written. For example, Claim 4 recites "A lampshade as claimed in any preceding claim..." is improper and should be changed to read as "A lampshade as claimed in any one of the preceding claims..." Appropriate correction is required. Similar correction is required for claims 5, and 13.

Claim 2 is objected to because of typo-graphic error. The word "plastics" should be changed to --plastic--

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach or suggest the invention as claimed which includes a lampshade having a plurality of panels joined to one another edge to edge wherein each panel is formed of a laminate comprising a relatively stiff substrate material and an overlying relatively flexible decorative layer an, wherein at each join between adjacent panels the flexible layer of at least one of the panels extends beyond the edge of the substrate to form a loose flap that serves to conceal the edge of the substrate material. This structure as specifically recited in independent claim 1 was no found in the prior art. Therefore claim 1 is allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Baliozian (US Pat. No 4,616,293), Lehrer (US Pat. No 5,571,280), Schacht (US Pat. No 6,398,390), and Sviland (US Pat. No 6,786,621) are cited of interest.
